Know Your Options

WHEN TO USE THE EMERGENCY ROOM

The emergency room shouldn't be your first choice unless there's a true emergency—a serious or life-threatening condition that requires immediate attention or treatment that is only available at a hospital.

WHEN TO USE URGENT CARE

Urgent care is for serious symptoms, pain, or conditions that require immediate medical attention but are not severe or life-threatening and do not require use of a hospital or ER. Urgent care conditions include, but are not limited to: earache, sore throat, rashes, sprains, flu, and fever up to 104°.

WHEN YOU NEED CARE NOW

What do you do when you need care right away, but it's not an emergency?

PREVENTIVE OR DIAGNOSTIC?

Preventive care is intended to prevent or detect illness before you notice any symptoms. Diagnostic care treats or diagnoses a problem after you have had symptoms.

Be sure to ask your doctor why a test or service is ordered. Many preventive services are covered at no out-of-pocket cost to you. The same test or service can be preventive, diagnostic, or routine care for a chronic health condition. Depending on why it's done, your share of the cost may change.

Whatever the reason, it's important to keep up with recommended health screenings to avoid more serious and costly health problems down the road.

Health Savings Account (HSA)

Do you want to save money on taxes? A Health Savings Account (HSA) is a tax-advantaged, portable (you own it!) savings account that is offered if you enroll in our UHC HSA compatible \$1,650 (plan B) or \$2,500 (plan C) Deductible Plan.

You (optional) and Ancestry contribute pre-tax money to your account to save for out-of-pocket healthcare expenses. Any money that you don't spend grows year after year and can be used in the future, even after you retire. Optum administers this account.

ACCOUNT CONTRIBUTIONS

	Company Contributes	You Can Contribute
Employee	Plan B: 1,650 Deductible Plan – \$800 Plan C: 2,500 Deductible Plan – \$1,250	Plan B: 1,650 Deductible Plan – \$3,500 Plan C: 2,500 Deductible Plan – \$3,050
Employee + Family	Plan B: 1,650 Deductible Plan – \$1,600 Plan C: 2,500 Deductible Plan – \$2,500	Plan B: 1,650 Deductible Plan – \$6,950 Plan C: 2,500 Deductible Plan – \$6,050
Catch Up Contributions		An additional \$1,000 per year at age 55+

USING YOUR MONEY

You can use your account to pay for qualified medical expenses that are not paid for by your high deductible health plan (HDHP). In general, your HSA can be used for these expenses:

- Medically necessary expenses that are not covered by your health plan including deductibles and coinsurance
- Dental care services
- Vision care services
- Prescription drugs
- Over-the-counter (OTC) medications prescribed by your doctor
- Certain medical equipment

When possible, use your HSA debit card to pay for expenses. Make sure that you keep records of your receipts and any OTC prescriptions in case the IRS requests them.

ELIGIBILITY

You are not eligible to open or contribute to an HSA account if you are:

- Covered by a non-high deductible health plan
- Enrolled in a regular healthcare flexible spending account (you or your spouse count)
- Covered under Medicare, Medicaid or Tricare
- Someone else's tax dependent

Non-Qualified Expenses

If you use HSA funds for non-qualified expenses before age 65, you will owe a 20% penalty tax PLUS income tax on the withdrawal. After age 65, if you use HSA funds for non-qualified expenses, you will owe income tax only. Visit [irs.gov/publications/p502](https://www.irs.gov/publications/p502) for details.

Flexible Spending Account (FSA)

A Flexible Spending Account (FSA) lets you set aside money—before it's taxed—through payroll deductions. The money can be used for eligible healthcare and dependent day care expenses you and your family expect to have over the next year. The main benefit of using an FSA is that you reduce your taxable income, which means you have more money to spend. And reimbursements from your FSA accounts are tax-free. The catch is that you have to use the money in your account by the end of our plan year. Otherwise, that money is lost, so plan carefully. **You must re-enroll in this program each year.** Optum administers this program.

IMPORTANT CONSIDERATIONS

There's no "crossover" spending allowed between the healthcare and dependent care accounts.

Expenses must be incurred between 01/01/25 and 12/31/25 and submitted no later than 03/31/26.

Elections cannot be changed during the plan year, unless you have a qualified change in family status (and the election change must be consistent with the event).

Unused amounts will be lost at the end of the plan year, so it is very important that you plan carefully before making your election.

FSA funds can be used for eligible expenses incurred by you, your spouse, and your tax dependents only. Your spouse or tax dependent children do not have to be covered on the Ancestry health plan.

You cannot obtain reimbursement for eligible expenses for a domestic partner or their children, unless they qualify as your tax dependents (Important: questions about the tax status of your dependents should be addressed with your tax advisor).

Keep your receipts as proof that your expenses were eligible for IRS purposes.

TAX-FREE HEALTHCARE FSA

Eligible expenses include medical, dental, and vision costs including plan deductibles, copays, coinsurance amounts, and other non-covered healthcare costs for you and your tax dependents. You may access your entire annual election from the first day of the plan year and you can set aside up to \$3,300 for 2025.

TAX-FREE LIMITED PURPOSE HEALTHCARE FSA

If you are enrolled in the UHC HSA compatible Plan B (\$1,650) or Plan C (\$2,500), you can participate in our Limited Purpose Healthcare FSA which covers out-of-pocket vision and dental expenses ONLY.

TAX-FREE DEPENDENT CARE FSA

Eligible expenses may include daycare centers, in-home child care, and before or after school care for your dependent children under age 13. Other individuals may qualify if they are your tax dependent and are incapable of self-care. It is important to note that you can access money only after it is placed into your dependent care FSA account.

All caregivers must have a tax ID or Social Security number. This information must be included on your federal tax return. If you use the dependent care reimbursement account, the IRS will not allow you to claim a dependent care credit for reimbursed expenses. Consult your tax advisor to determine whether you should enroll in this plan. You can set aside up to \$5,000 per household for eligible dependent care expenses for the year.

Dental

Regular visits to your dentists can protect more than your smile; they can help protect your health. Recent studies have linked gum disease to damage elsewhere in the body and dentists are able to screen for oral symptoms of many other diseases including cancer, diabetes, and heart disease.

When you enroll in the Dental PPO you are provided with dental coverage through MetLife.

Rather than getting a set number of vacation days per year, you and your manager will work together to allow you the time off you need while meeting your work and team obligations.

PAID TIME OFF

Ancestry created the below paid time off (PTO) policy for full-time, hourly employees. The policy was designed to provide flexibility to help with work life balance. This may be used for any reason such as relaxing, taking care of personal business, or illness. In general, you pay for health coverage before federal, state, and social security taxes are withheld, so you pay less in taxes. Please note that unless your domestic partner is your tax dependent as defined by the IRS, contributions for domestic partner coverage must be made after-tax. Similarly, the company contribution toward coverage for your domestic partner and his/her dependents will be reported as taxable income on your W-2. Contact your tax advisor for more details on how this tax treatment applies to you. Notify Ancestry if your domestic partner is your tax dependent.

Costs listed below are **monthly**.

Words You Need to Know

Health insurance seems to have its own language. You will get more out of your plans if you understand the most common terms, explained below in plain English.

MEDICAL

OUT-OF-POCKET COST - A healthcare expense you are responsible for paying with your own money, whether from your bank account, credit card, or from a health account such as an HSA, FSA or HRA.

DEDUCTIBLE - The amount of healthcare expenses you have to pay for with your own money before your health plan will pay. The deductible does not apply to preventive care and certain other services.

COINSURANCE - After you meet the deductible amount, you and your health plan share the cost of covered expenses. Coinsurance is always a percentage totaling 100%. For example, if the plan pays 70% coinsurance, you are responsible for paying your coinsurance share, 30% of the cost.

COPAY - A set fee you pay whenever you use a particular healthcare service, for example, when you see your doctor or fill a prescription. After you pay the copay amount, your health plan pays the rest of the bill for that service.

IN-NETWORK / OUT-OF-NETWORK - Network providers (doctors, hospitals, labs, etc.) are contracted with your health plan and have agreed to charge lower fees to plan members, as negotiated in their contract with the health plan. Services from out-of-network providers can cost you more because the providers are under no obligation to limit their maximum fees. With some plans, such as HMOs and EPOs, services from out-of-network providers are not covered at all.

OUT-OF-POCKET MAXIMUM - The most you would pay from your own money for covered healthcare expenses in one year. Once you reach your plan's out-of-pocket maximum dollar amount (by paying your deductible, coinsurance and copays), the plan pays for all eligible expenses for the rest of the plan year.

PRESCRIPTION DRUG

BRAND NAME - A drug sold under its trademarked name. For example, Lipitor is the brand name of a common cholesterol medicine. You generally pay a higher copay for brand name drugs.

GENERIC DRUG - A drug that has the same active ingredients as a brand name drug but is sold under a different name. For example, Atorvastatin is the generic name for medicines with the same formula as Lipitor. You generally pay a lower copay for generic drugs.

PREFERRED DRUG - Each health plan has a list of prescription medicines that are preferred based on an evaluation of effectiveness and cost. Another name for this list is "formulary." The plan may charge more for non-preferred drugs or for brand name drugs that have generic versions. Drugs that are not on the preferred drug list may not be covered.

DENTAL

BASIC SERVICES - Dental services such as fillings, routine extractions and some oral surgery procedures.

DIAGNOSTIC AND PREVENTIVE SERVICES - Generally include routine cleanings, oral exams, x-rays, and fluoride treatments. Most plans limit preventive exams and cleanings to two times a year.

MAJOR SERVICES - Complex or restorative dental work such as crowns, bridges, dentures, inlays and onlays.

Look-Back Measurement Method

You and your dependents are eligible for the medical benefits under Ancestry’s benefit plan if you are a full-time employee. A full-time employee is generally an employee who works on average 130 hours per month, as defined by the ACA. Hours that count toward full-time status include each hour for which an employee is paid or entitled to payment for the performance of duties for the employer, and each hour for which an employee is paid or entitled to payment for a period of time during which no duties are performed due to vacation, holiday, illness, incapacity (including disability), layoff, jury duty, military duty, or leave of absence. ACA full-time status can affect or determine medical benefits eligibility but is not a guarantee of benefits eligibility. Ancestry uses the Look-Back Measurement Method to determine whether an employee meets this eligibility threshold.

NEW EMPLOYEES

New employees hired to work full-time

If you are hired as a new full-time employee (work on average 130 or more hours a month), you and your dependents are generally eligible for Ancestry’s employee benefit plan coverage within 30 days of your date of hire.

New employees hired to work a variable hour or seasonal schedule

If you are hired into a part-time position, a position where your hours vary and Ancestry is unable to determine — as of your date of hire — whether you will be a full-time employee (work on average 130 or more hours a month), or you are hired as a seasonal employee who will work for six (6) consecutive months or less (regardless of monthly hours worked), you will be placed in an initial measurement period (IMP) of 12 months to determine whether you are a full-time employee.

Your 12-month IMP will begin on the first of the month following your date of hire and will last for 12 months. If, during your IMP, you average 30 or more hours a week over that 12-month period, you will be deemed to be full time and, if otherwise eligible for benefits, you will be offered coverage by the first of the second month after your IMP ends.

Your full-time status will remain in effect during an associated stability period that will last 12 months from the date that status is determined. If your employment is terminated during that stability period, and you were enrolled in benefits, you will be offered continuation coverage under COBRA.

EXISTING EMPLOYEES

Ancestry uses the Look-Back Measurement Method to determine Ancestry employee benefit plan eligibility for existing employees. An existing employee is an individual who has been employed for an entire standard measurement period. A standard measurement period is the 12-month period of time over which Ancestry counts employee hours to determine which employees work full-time.

An employee is deemed full-time if he or she averages 130 or more hours a month over the 12-month standard measurement period. Those employees who average 130 or more hours a month over the 12-month standard measurement period will be full-time and, if otherwise eligible for benefits, offered coverage as of the first day of the stability period associated with the standard measurement period. Full-time status will be in effect for a 12-month stability period.

If your employment is terminated during a stability period, and you were enrolled in benefits, you will be offered continuation coverage under COBRA.

Measurement Period: Time to determine if you work 130+ hours per month on average – used to establish if you are "full-time" or "part-time" for medical eligibility	November 1 – October 31
Stability Period: Time period during which you will be considered "full-time" or "part-time" for medical plan eligibility - based on hours worked during preceding Measurement Period	January 1 – December 31

Ancestry uses the standard measurement period and associated stability period annual cycle set forth above.
